Klett - Paneelwagen

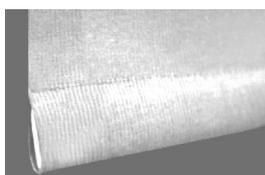

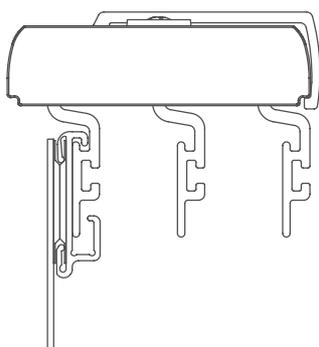

Gleitwagen mit Rollen aus hochwertigem Kunststoff. Oberprofil aus stranggepresstem Aluminium mit integriertem Klettband. Beschwerungsprofil 3 x 20 mm weiß oder silber.

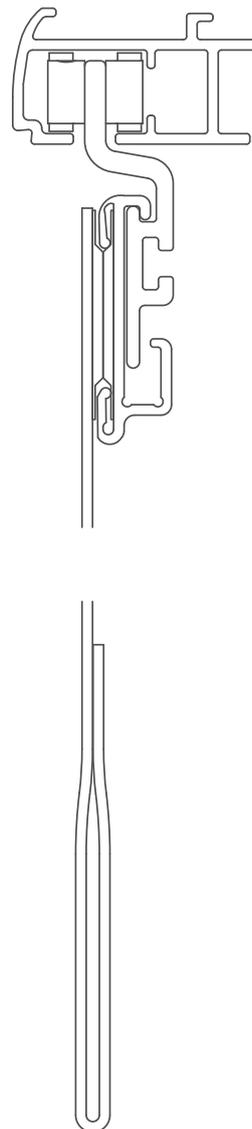

Das Klett-Oberprofil wird mit farbgleichen KS-Abschlußkappen versehen. Durch den eingeführten Gleitwagen kann zwischen Kederprofil und Schiene kein Licht mehr einfallen.

Das Klett-Oberprofil wird mit dem Behang einfach in den Gleitwagen gehängt.

Beschwerungsprofil mit genähter Tasche.

Beschwerungsprofil wird in die genähte Stofftasche gesteckt

Notes: Paneling is a decorative finish that can be applied to walls and ceilings. It is available in a variety of materials, including wood, plastic, and metal. Paneling is often used to create a classic or traditional look in a room. It can also be used to protect walls from damage and to hide imperfections. Paneling is a popular choice for homeowners looking to update their interior decor.

For each of the three cases, you will be asked to identify the patient's condition and to discuss the management options available to you.

Case 1

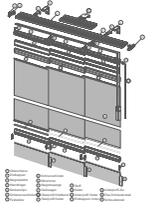

Mr. J. is a 65-year-old male with a long history of hypertension and hypercholesterolemia. He has been treated with atenolol and simvastatin. He presents with a 2-week history of progressive weakness and numbness in both lower limbs, which is worse at night. He has no bladder or bowel dysfunction. His past medical history is significant for a myocardial infarction 10 years ago and a stroke 5 years ago. He is a former smoker and has no alcohol intake.

Case 2

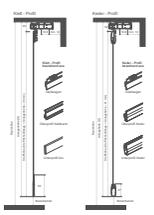

Ms. K. is a 45-year-old female with a long history of rheumatoid arthritis, treated with chronic low-dose prednisone (5 mg per day). She presents with a 3-week history of progressive weakness and numbness in both lower limbs, which is worse at night. She has no bladder or bowel dysfunction. Her past medical history is significant for a myocardial infarction 5 years ago and a stroke 3 years ago. She is a former smoker and has no alcohol intake.

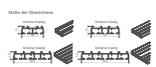

Case 3

Mr. L. is a 70-year-old male with a long history of hypertension and hypercholesterolemia. He has been treated with atenolol and simvastatin. He presents with a 2-week history of progressive weakness and numbness in both lower limbs, which is worse at night. He has no bladder or bowel dysfunction. His past medical history is significant for a myocardial infarction 10 years ago and a stroke 5 years ago. He is a former smoker and has no alcohol intake.
